

GAGANDEEP

FULL STACK WEB DEVELOPER

gagandeepattri8@gmail.com | +91 98724 41301 | Mohali, Punjab, India
github.com/gagandeep123944 | linkedin.com/in/gagandeep

PROFESSIONAL SUMMARY

Results-driven **Full Stack Web Developer** with **4.5+ years** of professional experience designing, building, and maintaining high-performance web applications, custom CRM platforms, and secure APIs. Proven expertise in architecting scalable backends using Laravel and Node.js alongside responsive frontends in React and Vue.js. Skilled in optimizing relational databases (MySQL, PostgreSQL), designing automated workflows (Zapier, n8n, Monday.com), and managing Linux VPS servers.

TECHNICAL SKILLS

Backend: Laravel, PHP, Node.js, Express.js, RESTful APIs, CodeIgniter
Frontend: React.js, Vue.js, JavaScript (ES6+), HTML5, CSS3, SASS, TailwindCSS, Bootstrap
Databases & DevOps: MySQL, PostgreSQL, Git, GitHub, Linux Server Management, VPS, WHM/cPanel
Automations & CRMs: n8n, Make.com, Zapier, Monday.com, Custom webhook systems

PROFESSIONAL EXPERIENCE

Full Stack Web Developer 2021 – Present
Baseline IT Development Mohali, India

- Architected and programmed high-performance backend modules in Laravel, Node.js, and native PHP alongside dynamic interactive user interfaces in React.js and Vue.js.
- Designed relational database schemas (MySQL & PostgreSQL), indexed critical tables, and optimized queries to improve page loading speeds.
- Engineered secure third-party integrations including SMS gateways, payment portals, and CRM system APIs using OAuth protocols.
- Designed and implemented custom automated pipelines using Monday.com, Zapier, and n8n nodes, reducing support workloads by over 30%.
- Managed and configured Linux VPS web servers, SSL deployments, and domain routings via shell terminal.

Backend Developer & Integrations 2020 – 2021
Freelance / Web Solutions Remote

- Developed custom CRM management configurations and database workflows for clients to automate customer scheduling and billing.
- Integrated SMS notifications and email autoresponders via backend APIs to improve client engagement rates.

Associate Web Developer 2019 – 2020
Tech Agency Mohali, India

- Assisted senior developers with database writing, query testing, and fixing minor front-end layout bugs.
